 **CRISTINA**
RUBINETTERIE

Disegnata da Busetti Garuti Redaelli, e premiata nel 2017 con l' Archiproducts Award, la serie Italy rilegge in chiave moderna i classici stilemi degli anni Venti. Eleganza, raffinatezza e l'utilizzo di materiali quali marmo e pietre ne sono i tratti caratteristici. Con questa serie si ha la possibilità di abbinare numerose finiture a varie essenze di marmo o pietre, per un totale di quasi 50 combinazioni. In questo modo, il miscelatore può essere scelto in funzione di un gusto personale. Nel dettaglio, i bordi delle manopole sono caratterizzati da una lavorazione tipica del cristallo e del taglio delle pietre preziose. I rosoni, alla base del miscelatore, si ispirano alle boiserie delle sale da bagno tipiche dell'epoca. Le maniglie vengono ricavate dalla lavorazione di un blocco pieno, di marmo o pietra che, con la loro matericità e cromia determinano tutto l'insieme del progetto. Il corpo del miscelatore è realizzato in fusione di ottone, mentre nella forma rettangolare della bocca di erogazione è alloggiato un rompigitto che va a garantire un flusso d'acqua uniformemente a cascata. Proposta in diverse declinazioni, la serie Italy è facilmente contestualizzabile sia in ambienti classici che contemporanei.

The Italy series, designed by Busetti Garuti Redaelli, and which in 2017 won the Archiproducts Award, gives a modern twist to the classic styles popular in the 1920s. Elegance, sophistication, and the use of materials such as marble and stone are its distinctive features. With this series you have the possibility to blend a variety of finishes with several types of marble or stone, for a total of almost 50 combinations. In this way, the mixer tap can be chosen according to one's personal taste. More specifically, the edges of the knobs are characterised by a typical crystal machining process as well as the cutting of precious stones. The roses at the base of the mixer taps are inspired by the millwork of the bathroom typical of that period. The handles are obtained from the processing of a solid block of marble or stone that with their materic effect and colour determine the whole project. The body of the mixer tap is made of cast brass, while a flow regulator is housed in the rectangular spout, to ensure a uniform cascade-like outflow of water. The Italy series is available in a variety of styles and therefore can easily be contextualised in both classical and contemporary environments.

Vom Designer Busetti Garuti Redaelli entworfen und 2017 mit dem Archiproducts Award ausgezeichnet interpretiert die Serie Italy unter modernem Gesichtspunkt die klassischen Stilelemente der zwanziger Jahre. Eleganz, Feinheit und die Verwendung von Materialien wie Marmor und Steinen sind die charakteristischen Merkmale. Mit dieser Serie ist es möglich, zahlreiche Oberflächen mit verschiedenen Marmor- oder Steinsorten zu kombinieren, was insgesamt fast 50 Kombinationen ermöglicht. Auf diese Weise kann die Armatur nach persönlichem Geschmack ausgewählt werden. Die Kanten der Griffe zeichnen sich durch eine typische Verarbeitung und Schnitt des Kristalls von Edelsteinen aus. Die Rosetten der Armaturen inspirieren sich nach der Boiserie der damaligen Badezimmer. Die Griffe werden aus der Verarbeitung eines massiven Marmor- oder Steinstücks gewonnen und bestimmen mit deren Eigenschaften und Farben das gesamte Projekt. Der Armaturenkörper ist aus Messingguss, während der rechteckige Auslauf ist mit einem Strahlregler ausgestattet, um einen gleichmäßigen Wasserstrahl zu gewährleisten. Die Serie Italy passt in ihrer verschiedenen vorgeschlagenen Kombinationen sowohl zu klassischen als auch zu modernen Ambienten.

Conçue par Busetti, Garuti & Redaelli, et récompensée en 2017 par le prix Archiproducts, la gamme Italy réinterprète les styles classiques des années 1920 dans une tonalité moderne. L'élégance, le raffinement et l'utilisation de matériaux tels que le marbre et la pierre sont ses caractéristiques. Avec cette série, vous avez la possibilité de combiner de nombreuses finitions avec différentes essences de marbre ou de pierre, pour un total avoisinant les 50 combinaisons. De cette façon, le mitigeur peut être choisi en fonction des goûts personnels. En détail, les bords des poignées sont caractérisés par un traitement typique du cristal et la taille de pierres précieuses. Les rosaces, à la base du mélangeur, sont inspirées des revêtements de salle de bains typiques de l'époque. Les poignées sont obtenues en travaillant un bloc massif de marbre ou de pierre qui, par leur matière et leur couleur, déterminent l'ensemble du projet. Le corps du mitigeur est en laiton, tandis que dans la forme rectangulaire du bec, un mousseur garantit un écoulement uniforme de l'eau en cascade. Proposée dans différentes déclinaisons, la gamme Italie est facilement contextualisée dans des environnements tant classiques que contemporains.

I designer Busetti Garuti Redaelli raccontano: "Abbiamo definito nuove forme e volumi che reinterpretano gli ideali canonici della classicità, dove le sfaccettature che moltiplicano i riflessi rimandano a lavorazioni tipiche del cristallo e del taglio di pietre preziose."

The designers Busetti Garuti Redaelli say: "We have defined new forms and volumes that reinterpret classic canonical ideals, where the reflective surfaces remind us of typical crystal processing and cutting of precious stones."

Die Designer Busetti, Garuti und Redaelli erklären: "Wir haben neue Formen und Volumen definiert, Ideale der Klassik neu interpretiert: die Facetten, die die Glanzlichter vermehren, verweisen auf die Bearbeitung des Kristallglases zu Juwelen".

Les designers Busetti Garuti Redaelli racontent: "Nous avons défini de nouvelles formes et volumes qui réinterprètent les idéaux canoniques classiques, dont les facettes aux multiples reflets, reportent aux techniques de taille typique des cristaux et des pierres précieuses"

MARBLE & STONES

Importanti e nobili materiali, dal carattere forte e unico, in numerose finiture che offrono ampia possibilità di personalizzazione. Il corpo in ottone, dalle linee delicatamente austere, può essere declinato in diverse finiture galvaniche, le manopole in numerose essenze di marmo o pietra. Italy si configura come un progetto di grande forza espressiva che coinvolge visivamente e tattilmente con la sua bellezza naturale.

Important, noble materials, with a strong, unique identity come in a number of finishes that offer a wide range of options to suit your personal style. The brass body, with its gently austere lines, can be offered in several galvanic finishes, and the knobs in numerous marble or stone essences. Italy is a project whose highly expressive force visually and tactfully engages you with its natural beauty.

Wertvolle- und edle Materialien, kraftvolle und einzigartige Strukturen in einer Vielfalt in der Oberflächen, die verschiedenen Möglichkeiten der individuellen Gestaltung. Der Messingkörper mit sanft strengen Linien ist in verschiedenen galvanischen Farben erhältlich. Die Griffe in zahlreiche Essenzen aus Marmor oder Stein kombinierbar. Italy ist ein Projekt mit großer Ausdruckskraft, das visuell und haptisch mit seiner natürlichen Schönheit fasziniert.

Des matériaux importants et nobles, avec un caractère fort et unique, dans de nombreuses finitions qui offrent une large gamme d'options de personnalisation.

Le corps en laiton, avec ses lignes légèrement austères, se présente dans plusieurs finitions galvaniques, les poignées dans nombreuses essences de marbre ou de pierre. Italy est un projet d'une grande force d'expression qui sensibilise au touché et au niveau visuel par sa beauté naturelle.

FINITURE /FINISHINGS

L'altissima qualità delle finiture, ottenute tramite processo galvanico, è curata da esperti altamente qualificati che lavorano come alchimisti per assicurare alle superfici, sia lucide sia spazzolate, elevati standard tecnici ed estetici. Con la stessa cura i marmi e le pietre vengono selezionati e trattati per mantenere nel tempo le originarie caratteristiche estetiche.

The top quality finishes, obtained through galvanic processes, are carefully managed by qualified engineers whose quasi-chemist skill ensures that the polished or brushed surfaces meet with the highest technical and aesthetic standards. With the same care, marbles and stones are selected and treated in order to maintain their original aesthetic features over time.

Die hohe Qualität der Farben, die durch das galvanische Verfahren hergestellt werden, wird von hoch qualifizierten Fachleuten verfolgt, die wie Alchemisten arbeiten, um hohe technische und ästhetische Standards bei den glänzenden sowie den gebürsteten Oberflächen zu gewährleisten. Mit der gleichen Sorgfalt werden Marmor und Steine ausgewählt und behandelt, um die ursprünglichen ästhetischen Eigenschaften im Laufe der Zeit aufrechtzuerhalten.

La haute qualité de finition, obtenue par procédé galvanique, est suivie par des experts hautement qualifiés qui, comme des alchimistes, dédient leur travail pour obtenir des surfaces, soit brillantes que brossées, avec des standards techniques et esthétiques élevés. Avec le même soin, les marbres et les pierres sont sélectionnés et traités pour maintenir les caractéristiques esthétiques originales au fil du temps.

YOUR CHOICE

La serie, con circa 50 possibilità tra abbinamenti cromatici e materici, rappresenta un elemento d'arredo esteticamente importante, che contribuisce a definire l'atmosfera dell'ambiente bagno e riflettere la personalità di chi lo abita.

With about 50 different colour and material combinations, the range is an important and attractive furnishing accessory that helps to create the bathroom atmosphere and to reflect the personality of those who live in it.

Mit ca. 50 verschiedenen möglichen Kombinationen aus Farben und Materialien, repräsentiert die Serie ein ästhetisch exklusives Einrichtungs-element: Das besondere Ambiente des Bades unterstreicht die Persönlichkeit der Eigentümer.

Comptant environ 50 possibilités de combinaisons des couleurs et des matériaux, la série représente un élément esthétiquement important dans la définition de l'atmosphère de la salle de bain et dans l'expression de la personnalité de ceux qui y vivent.

Ispirata all'atmosfera sofisticata e rilassante tipica delle SPA, questa proposta prevede una palette cromatica che valorizza le tonalità calde e naturali, tipiche del mondo della natura, come la sabbia dorata e la terra grezza. Il risultato finale è la grande forza espressiva della materia.

Inspired by the sophisticated and relaxing atmosphere typical of SPAs, this proposal provides a chromatic palette that enhances the warm and natural shades, which are distinctive features of the world of nature, such as golden sand and rough earth. The end result is the highly expressive force of the material.

Von der anspruchsvollen und entspannenden Atmosphäre einiger SPA' s inspiriert, bietet die Serie eine Farbpalette warmer und natürlicher Töne wie goldenen Sand und Ton. Die große Ausdruckskraft des Materials unterstreicht die typische Vielfalt der Natur.

Inspirée par l'atmosphère sophistiquée et relaxante, typique des SPA, cette proposition offre une palette chromatique qui met en évidence les nuances chaudes et naturelles, qui évoquent le monde de la nature, comme le sable doré et la terre brute. La grande force d'expression de la matière en est le résultat final.

Un ambiente bagno libero dai tradizionali canoni estetici che, in un percorso di continuità, si avvicina alle altre stanze della casa. In questa proposta, colore e finiture esprimono un lusso contemporaneo e discreto, che predilige l'utilizzo di finiture metalliche per il corpo rubinetto, abbinato a preziosi marmi dalle eleganti striature.

A bathroom space with no traditional aesthetic limits, that approaches the other rooms of the house with progressive harmony. A suggestion of colour and finishes to enhance a contemporary and discreet luxury, focusing on metal finishes for the tap body, combined with precious marbles with elegant streaks.

Ein Bad-Ambiente frei von den traditionellen ästhetischen Kriterien, das die anderen Räume des Hauses einbezieht. Farbe und Oberflächen strahlen einen zeitlosen und diskreten Luxus aus. Hier wird die Kombination aus metallischen Oberflächen für den Armaturenkörper und wertvollem Marmor für die Griffe bevorzugt.

Une salle de bain sans limites esthétiques traditionnelles qui permet de s'approcher progressivement et avec continuité, aux autres pièces de la maison. Dans cette proposition, la couleur et les finitions expriment un luxe contemporain et discret, qui opte pour l'utilisation de finitions métalliques pour le corps du robinet, combiné avec des marbres précieux striés de veines élégantes.
